Independent Auditor's Report

To the Members of the Cook Islands National Superannuation Fund

Opinion

We have audited the financial statements of the Cook Islands National Superannuation Fund (the "Fund") which comprise the statement of net assets as at 31 December 2020, and the statement of changes in net assets and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements, on pages 3 to 18, present fairly, in all material respects, the financial position of the Fund as at 31 December 2020, and its financial performance and cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards ('applicable accounting framework').

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ('ISAs') and International Standards on Auditing (New Zealand) ('ISAs (NZ)'). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Company in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Other than in our capacity as auditor and the provision of taxation advice, we have no relationship with or interests in the Fund. These services have not impaired our independence as auditor of the Fund.

Trustees' responsibilities for the financial statements

The trustees are responsible on behalf of the Fund for the preparation and fair presentation of the financial statements in accordance with the applicable accounting framework, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible on behalf of the Fund for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Deloitte.

Auditor's responsibilities for the audit of the financial statements Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on at the External Reporting Board's website at:

https://www.xrb.govt.nz/Site/Auditing Assurance Standards/Current Standards/Page8.aspx

This description forms part of our auditor's report.

Restriction on use

This report is made solely to the Fund's members as a body. Our audit has been undertaken so that we might state to the Fund's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund's members as a body, for our audit work, for this report, or for the opinions we have formed.

Auckland, New Zealand 4 June 2021

Notes to the Financial Statements For the year ended 31 December 2020

1. Scheme Description

The Cook Islands National Superannuation Fund (the "Fund") commenced operations on 19 September 2001 on the signing of the Trust Deed by the Board of the Cook Islands National Superannuation Fund and Public Trust, a New Zealand crown entity established under the Public Trust Act 2001.

The Fund is a defined contribution superannuation scheme. Upon retirement, most contributing member accounts are transferred to pensioner accounts. The pension paid to a retired member (or their surviving spouse) is based on the account balance at retirement and a rate of pension conversion applied by the Trustee. The rate of conversion is set by the Trustee based on actuarial advice. The Fund does not have the actuarial risks associated with defined benefit schemes because the conversion rate can be altered by the Trustee.

The Fund is domiciled in the Cook Islands and the registered office is located in the ANZ House, Avarua, Rarotonga, Cook Islands.

Funding Arrangements

In 2019 member and contribution rates were 5% of pensionable salary in accordance with the Cook Islands National Superannuation Act 2000. Due to the COVID-19 pandemic, the Fund was approached by government to assist with its Economic Response Package, to allow for a temporary reduction in contribution rates to provide financial relief to members. After reviewing the recommendation received from the Cook Islands Government, the Trustee and Board approved a rate reduction. In accordance with the COVID-19 (Cook Islands National Superannuation) Act 2020, from 1 April 2020 to 30 June 2020, member and employer contribution rates were reduced from 5% to 3% of pensionable salary. Then from 1 July 2020 to 30 September 2020, the rate was reduced further to 1% of pensionable salary. Due to the COVID-19 pandemic situation not improving by September 2020, a request from the Cook Islands Government was received to extend the reduced contribution rates. The Board and Trustee approved that from 1 September 2020 to 31 December 2020, businesses who received a business grant or wages subsidy were eligible for the 1% reduced rate, and businesses who did not qualify for a business grant or wage subsidy were required to contribute at the 5% rate, as set out in the COVID-19 (Cook Islands National Superannuation) No. 2 Act 2020. This Act also allows for a possible extension to 31 March 2021.

Termination Terms

The Trust Deed sets out the basis on which the Fund can be terminated. Clause 138 of the Trust Deed also covers the situation where the Fund can be wound-up, upon the date determined by the Fund's National Superannuation Board in consultation with the Trustee and the Cook Islands Government.

Changes in the Fund

There were no amendments to the Trust Deed during the year, other than the changes to contribution rate noted above.

2. Basis of Preparation

Statement of Compliance

The financial statements of the Fund have been prepared in accordance with the Trust Deed governing the Fund and New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand Equivalents to International Financial Reporting Standards Reduced Disclosure Regime ("NZ IFRS RDR") and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial statements comply with International Financial Reporting Standards Reduced Disclosure Regime ("IFRS RDR") as issued by the External Reporting Board, and has applied disclosure concessions. The Fund qualifies for NZ IFRS RDR as it does not have public accountability and it is not a large for-profit public sector entity.

Measurement Base

The measurement base adopted is that of historical cost modified by the revaluation of financial assets which are measured at fair value through profit or loss.

Functional and Presentation Currency

These financial statements are rounded to the nearest dollar and presented in New Zealand dollars because that is the currency of the primary economic environment in which the Fund operates.

Classification of Assets and Liabilities

The Fund operates as a superannuation scheme. As such, the assets and liabilities are disclosed in the Statement of Net Assets in an order that reflects their relative liquidity.

Classification of Expenditure

Expenditure in the Statement of Changes in Net Assets and Statement of Cash Flows is allocated to the investment funds on a basis according to member registry balances. This methodology is consistent with the prior year.

Notes to the Financial Statements For the year ended 31 December 2020

3. Summary of Significant Accounting Policies

Standards, amendments and interpretations to existing standards that are effective and have been adopted by the

NZ IFRS 16 Leases is effective for annual periods beginning on or after 1 January 2019, and has been adopted by the Fund from 1 January 2020. The Fund has disclosed the following leases in these financial statements:

The Fund is the lessee of two floors in ANZ House in Avarua, Rarotonga, Cook Islands. The lease commenced on 1 April 2020 with a term of four years expiring on 31 March 2024, and no right of renewal. Depreciation is provided on a straight line basis that will write off the right-of-use asset over the term of the lease. The interest expense rate applied is 12% per annum. Expenses relating to the lease represent office repairs and maintenance during the year.

	Total
	2020
	NZ\$
Depreciation charge for right-of-use assets for the year	(55,268)
Interest expense on lease liabilities for the year	(25,498)
Expenses relating to the lease for the year	(11,452)
Carrying amount of right-of-use asset at year end	239,494

The Fund is the lessor of the ground floor of ANZ House in Avarua, Rarotonga, Cook Islands. The sub-lease commenced on 1 September 2020 with a term of nineteen months and a right of renewal for two years from 1 April 2022 expiring on 31 March 2024.

Total 2020 NZ\$ 9,067

Lease revenue for the year

Interest Income

Interest income is recognised in the Statement of Changes in Net Assets using the effective interest method.

Investment Income

Distribution income and other income from unitised investments are recognised in the Statement of Changes in Net Assets to the extent that it is probable that the economic benefits will flow to the Fund and the income can be readily measured.

Income and Expenses

Income and expenses are accounted for on an accruals basis.

Receivables

Receivables do not carry any interest, and are short-term in nature and are stated at their amortised cost.

Payables

Payables include liabilities and accrued expenses owing by the Fund which are unpaid as at balance date. These amounts are unsecured and are usually paid within 30 days of recognition. These amounts are stated at amortised cost.

Goods and Services Tax ("GST")

The Fund is not registered for GST and consequently all components of the financial statements are stated inclusive of GST where appropriate.

Accrued Benefits

Accrued benefits (also known as promised retirement benefits) are the benefits which the Fund is presently obliged to transfer in the future to employees and participants, as a result of membership of the Fund, up to the date at which the actuarial valuation of accrued benefits is determined.

Taxation

The Fund is an overseas superannuation scheme which has no liability for New Zealand taxation other than Non Resident Withholding Tax. The Fund is exempt from tax in the Cook Islands under the CINS Act 2000.

The Fund invests into various Portfolio Investment Entities ("PIE"). The tax liability arising on income with a Portfolio Investor Rate ("PIR") 28% is allocated to the Fund, and is satisfied by cancellation of the units held by the Fund.

The income tax expense represents PIE tax and Non Resident Withholding Tax.

Notes to the Financial Statements For the year ended 31 December 2020

3. Summary of Significant Accounting Policies (Cont'd)

Statement of Cash Flows

The following are definitions of the terms used in the Statement of Cash Flows:

Cash includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Operating activities - include all transactions and other events that are not investing activities or financing activities.

Investing activities - comprise acquisition and disposal of investments. Investments include securities not falling within the definition of cash.

Contributions and Benefits

Contributions and benefits are accounted for on an accrual basis. Contributions are recognised in the Statement of Changes in Net Assets when they become receivable, or are received.

Benefits are recognised in Statement of Changes in Net Assets when they become payable or are paid.

In the 2019 financial statements, certain pensions were classified as retirement benefits. These have been re-classified and restated accordingly in these financial statements. The re-statement in the Statement of Changes in Net Assets and Statement of Cash Flows is presented below. There is no financial impact on Net Assets Available to Pay Benefits in the current year or prior year.

Financial instruments

Classification

The Fund classifies its investments as financial assets at fair value through profit or loss.

Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Fund's documented investment strategy. The Fund's policy is for the Trustee to evaluate the information about these financial assets on a fair value basis together with other related financial information. The Trustee has determined that all financial assets and liabilities of the Fund are designated at fair value through profit or loss with the exception of receivables and payables which are measured at amortised cost.

Recognition/derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date. Investments are derecognised when the right to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership. All realised and unrealised gains or losses on financial assets and financial liabilities held at fair value through profit or loss are recognised in the Statement of Changes in Net Assets.

Notes to the Financial Statements For the year ended 31 December 2020

3. Summary of Significant Accounting Policies (Cont'd)

Financial instruments (Cont'd)

Measurement

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all financial assets and financial liabilities held at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Changes in Net Assets.

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer a liability takes place either:

- In the principal market of the asset or liability.
- In the absence of a principal market, in the most advantageous market for the asset or liability.
- The principal or most advantageous market must be accessible by the Fund.

The fair value of financial assets at fair value through profit or loss is based on the prices provided by the investment manager. For further details please refer to Note 14.

Property, Plant and Equipment

Property, plant and equipment assets are stated at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight line basis at rates that will write off the cost of assets over their estimated useful lines.

The following depreciation rates have been applied:

Furniture and Fittings	10%
Equipment	25%
Motor Vehicle	20%
IT System	33%

Capital Risk Management

The Fund's primary purpose is to ensure that its net assets are sufficient to meet all present and future obligations of the Fund, as defined by the liability for accrued benefits.

The Fund achieves this through obtaining contributions from members and members' employers. These are then invested into financial assets.

Critical Judgement and Accounting Estimates

The Trustee discussed the development, selection and disclosure of the Fund's critical accounting policies and estimates and the application of these policies and estimates. The Trustee has applied judgement in selecting the accounting policy to designate financial assets held at fair value through profit or loss at inception. However it is possible to determine the fair values of all financial assets as quoted unit prices from the Investment Managers which are readily available and therefore there are no material sources of estimation uncertainty in the preparation of the Fund's financial statements. However as with all investments their value is subject to variation due to market fluctuations. For the purposes of the fair value hierarchy of financial assets at fair value through profit or loss, the Trustee has to apply their judgement as to what constitutes "directly observable prices". For further details please refer to note 14 (Fair Value).

Changes in Accounting Policies

There have been no changes to accounting policies during the year other than adoption of NZ IFRS 16 Leases. In April 2020 the Fund became lessee of ANZ House in Avarua, Rarotonga, Cook Islands. The Fund also sub-leased the ground floor of ANZ House in September 2020.

11. Financial Instruments

The Fund utilises a number of financial instruments in the course of its normal investing activities. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in the accounting policies.

The Trustee has approved a Statement of Investment Policies and Objectives which establishes investment objectives and target asset allocations for the Fund. Performance against these targets is reviewed at least quarterly by the Trustee and asset reallocations undertaken as required.

	Total 2020	Total 2019
	NZ\$	NZ\$
Financial instruments by category		
Financial assets at fair value through profit or loss Investments at fair value through profit or loss	201,711,562	183,533,562

Government Wage Subsidies Payable	3,197,777	-
Lease Liabilities	239,807	-
Total financial liabilities	3,669,258	192,092

Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial instruments which potentially expose the Fund to credit risk consist of cash, receivables, and investments in unitised funds. The maximum credit exposure to credit risk is the carrying value of these financial assets.

Credit risk management activities are undertaken by the investment manager in accordance with investment mandate set by the Trustee.

Liquidity Risk

Liquidity risk is the risk that the Fund may encounter difficulty in raising funds to meet its obligation to pay members. However, to control liquidity risk, the Fund invests in financial assets, which are readily redeemable. In addition, the Fund invests within established limits to ensure there is no concentration of risk. There are no significant financial liabilities.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Due to the unitised nature of the investments it is not practical to determine the sensitivity of the unit price to changes in foreign exchange rates, interest rates, or other market factors of the underlying investments. Risk management activities are undertaken by the Fund's investment manager to operate within the guidelines provided by the Trustee.

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund has an indirect exposure to currency risk through its investments in the Russell Global Opportunities Fund \$NZ Hedged Class B and the Russell Global Bond Fund Class B. Currency hedging is used by the Investment Manager to hedge the exposure back to New Zealand dollars.

Notes to the Financial Statements For the year ended 31 December 2020

11. Financial Instruments (Cont'd)

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of interest-bearing financial instruments will fluctuate because of changes in market interest rates. The Fund is indirectly exposed to interest rate risk in that future interest rate movements will indirectly affect the valuation of investments in unitised funds which invest in cash and fixed interest investments. There is no maturity period for unitised investments.

Interest rate risk management activities are undertaken by the Investment Manager in accordance with the investment mandate set by the Trustee.

Other Price Risk

Other price risk is the risk that the value of the Fund's investments will decrease due to a change in the unit prices of the Fund's unitised funds.

As at 31 December 2020 the Fund is exposed to other price risk through its investments in Funds managed by Russell Investment Management Limited.

A ten percent decrease/increase in the unit prices of the Fund's investments in the unitised funds would have an adverse/positive impact on the value of the Funds assets of:

Crouth

Capital Management

Net assets available to pay benefits are considered to be the Fund's capital for the purposes of capital management. The Fund does not have to comply with externally imposed capital requirements.

The Fund's objectives when managing capital are to safeguard its ability to continue as a going concern in order to provide returns to its members and maximise the Fund's members value.

Investment Strategy

Russell Investments NZ Fixed Interest Fund

The Fund's investment objectives are to exceed the New Zealand Consumer Price Index (CPI) net of fees and tax measured over rolling 3-year periods per investment fund choice as listed below:

Conservative Fund	2.0%
Balanced Fund	3.5%
Growth Fund	4.5%

To meet these investment objectives, net contributions per investment fund choice are invested into the following asset mixes:-

Growth Assets (Equities) Income Assets (Bonds)	30% 70%	60%	80% 20%
Trust Name	Sector	Domiciled	
Russell Global Bond Fund Class B	Income Assets	Australia	
Russell Global Opportunities Fund \$NZ Hedged Class B	Growth Assets	Australia	
Russell Investments NZ Shares Fund	Growth Assets	New Zealand	

Notes to the Financial Statements For the year ended 31 December 2020

12. Actuarial Valuation

The most recent actuarial valuation dated 12 August 2020 was undertaken by Simon Ferry, of Aon New Zealand, Fellow of the New Zealand Society of Actuaries. The actuarial valuation was based on the Fund's financial and membership information as at 31 December 2019. The next actuarial valuation will be based on the Fund's financial and membership information as at 31 December 2022.

The results of the 2019 actuarial valuation show that the Fund has a small excess of assets over liabilities as follows:-Value of Accrued Benefits

	INZO
Members' Accounts	177,129,492
Pensioners' Liabilities	10,544,783
Total Accrued Benefits (A)	187,674,275
Value of Assets (B)	187,992,093
Surplus (B - A)	317,818

The Fund's Actuary calculated the Pensioners' Liabilities of \$10,544,783 as the present value of the expected future pension payments to existing pensioners and their spouses (if applicable).

The Accrued Benefits include a Pension Reserve of \$235,367 and a General Reserve of \$2,086,170. The General Reserve includes a buffer of approximately \$1.5 million to cover potential investment strains related to COVID-19. The Fund's Actuary also stated that provided the Fund's future experience is broadly consistent with the assumptions used in the actuarial valuation and the Trustee continues to manage the declared rate (the interest rate credited to members' accounts) so that the sum of the Pension, Reserve and Pension Reserve Accounts exceed the value of the pensioner liabilities then:

- · no specific, additional funding in respect of the pensioners is required, and
- the Fund will continue to have an excess of assets over accrued benefits for the following 12 month period.

The CINSF Board accepted the Actuarial Report and the pension rates set out in the Actuarial Report with an implementation date of 28 February 2021.

13. Reserve Account Policy

Amounts in the Reserve Account may be applied by the Trustee:

- (a) to the credit of one or more member accounts, pension accounts, or the pension reserve account;
- (b) to make a payment under clause 67 of the Trust Deed;
- (c) to pay particular fund expenses;
- (d) to meet general fund expenses; or
- (e) to pay insurance premiums under clause 63 of the Trust Deed.

14. Fair Value

The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective fair values, determined in accordance with the Fund's accounting policies.

- •Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- •Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- •Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. For this purpose, the significance of an input is assessed against the fair value measurement. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement requires judgement, considering factors specific to the asset or liability. The determination of what constitutes 'observable' requires significant judgement by the Trustee. The Trustee considers 'observable' data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Notes to the Financial Statements For the year ended 31 December 2020

14. Fair Value (Cont'd)

The following table analyses within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value:

Level 1 NZ\$	Level 2 NZ\$	Level 3 NZ\$	Total NZ\$
-	47,009,546		47,009,546

-	23,456,513	-	23,456,513
	183.533.562		183,533,562
	NZ\$ Level 1 NZ\$	NZ\$ NZ\$ - 47,009,546 - 104,441,233 - 25,419,214 - 24,841,569 - 201,711,562 Level 1 Level 2 NZ\$ - 42,285,662 - 96,053,635 - 21,737,752 - 23,456,513	NZ\$ NZ\$ NZ\$ - 47,009,546 - 104,441,233 - 25,419,214 - 24,841,569 - - 201,711,562 - Level 1 Level 2 Level 3 NZ\$ NZ\$ - 42,285,662 - 96,053,635 - 21,737,752 - 23,456,513 -

As the investments are unlisted and fair value is based on prices determined by the investment manager, they have been classified in both 2020 and 2019 financial periods as level 2.

There were no transfers between levels during the year.

15. Property, Plant and Equipment

The following property, plant and equipment assets are held in the Cook Islands Office as at year end:

Net Contributions Receivable - Member	475,376	936,921
Contributions Receivable - Employer		
Gross Contributions Receivable - Employer	411,803	929,449
Provision for non-recovery of contributions - Employer	-	(22,149)
Net Contributions Receivable - Employer	411,803	907,299

The provision for non-recovery of contribution provisions represents 100% (2019: 100%) of the estimated value of outstanding contributions that certain employers and employees are presently obliged to contribute that are not yet recovered.

17. Related Parties

The Fund holds no investments in any of the employer companies or any of their related parties and during the period had no related party transactions.

18. Privy Council Decision

At a hearing in the High Court of the Cook Islands in 2013, the Minister responsible for the Fund took action against various parties relating to the non-payment of compulsory contributions as mandated under the Cook Islands National Superannuation Fund Act 2000. In February 2014 a judgement was issued which concluded that the compulsory nature of contributions was a breach of the Articles of the Cook Islands Constitution and a declaration that the Act was invalid was issued on 31 March 2014. The Minister appealed the High Court decision. The Court of Appeal judgement issued in November 2014 found that the Act does comply with the Cook Islands Constitution.

The Respondents were granted leave to appeal to the Privy Council. The judgement of the Privy Council issued in November 2016 found that the Act does comply with the Cook Islands constitution. The judgement allowed the appeal on the grounds that the employer contributions of migrant workers forfeited to the Fund under Section 53 of the Act were unjustifiably discriminatory in relation to the Constitution and invited written submissions. However, given the decision to allow the appeal in relation to employer contributions of migrant workers the Trustee in consultation with the Cook Islands National Superannuation Board initiated a repayment plan to impacted members.

The balance of this obligation as at 31 December 2020 is \$1,087,764 (2019: \$1,096,470).

19. Cook Islands Government Wage Subsidy

In March 2020 the CINSF office established a bank account for the purpose of distributing subsidies to Cook Islands' businesses, as part of the Cook Islands Government Economic Recovery Package, affected by the COVID-19 pandemic. Distribution of the subsidies are undertaken by the CINSF Office because it holds records of local businesses through the collection of superannuation contributions. The subsidies are entirely funded by the Cook Islands Government. There is no financial impact on the Fund's performance or position. The subsidies are expected to terminate in 2021.

20. Contingent Liabilities

In 2014 an amendment to the Value Added Tax Act required that entities not registered for value added tax ("VAT") in the Cook Islands become liable for VAT on imported services. The VAT liability applies to professional and investment management fees from offshore service providers from 1 April 2014. The value of the Fund's VAT liability from 2015 - 2019 is estimated at \$325,000. The Trustee has been in discussions with the Ministry of Finance and Economic Management, as it is the Trustee's view based on discussions to date, that the Fund was not intended to be caught by these amendments.

21. Events after Balance Date

The COVID-19 (Cook Islands National Superannuation) Act 2021 came into force on 1 April 2021. It allows for employers and employees to contribute to the Fund at the rate of 1% of the employees' earnings although employers and employees can still opt to make contributions up to 5%. The Act ceases to apply at the close of 30 June 2021 although an Order in Executive Council may extend the application of this Act to no later than 30 September 2021.

The Trust Deed was amended with effect from 1 April 2021. The amendment enables pensioners suffering a terminal illness to withdraw the Pension Account balance. Members with a Compulsory Account balance between \$15,000 and \$45,000 may withdraw the Compulsory Account balance or receive a pension. Pensioners may withdraw the Pension Account balance if this was less than \$45,000 at the time they became a pensioner.
